

## Christmas in the County here at Wesley Acres

Christmas is arguably the most significant holiday season recognized worldwide. As a society we don't do enough to celebrate the true meaning of Christmas enough as there seems to be too much emphasis on gift-giving and vacation time. As believers in Christ, we know it is all about celebrating the birth of our Saviour, Jesus Christ.

Wesley Acres is continuing to take the initiative of being part of celebrating this most significant season by being the host of 'Christmas in the County' this **Saturday, November 26, 2011 at 6:00pm**. George & Sheila Patton have picked up the torch and spend countless hours helping to promote this meaningful event. Their goals are to reach our community with the gospel message and to raise awareness of our wonderful camp; to encourage one another - campers and residents of Wesley Acres; and to raise extra funding for camp projects. They endeavour to keep prices reasonable so people can bring friends, neighbours etc.

Uplifting music with a Christmas flavour will be provided by The Bridgebuilders, a male quartet from the Ottawa region who have sung in the Gaither regional concerts. Joel Bootsma will also perform. Joel is a professional concert violinist from the Belleville area - a very talented and competent musician.

Monica Cooke and her team will be providing a full course beef dinner with all the trimmings and a buffet dessert included. Monica is not a stranger as she served as programme director at Wesley Acres in past years.

If you have any inquiries or wish additional information please feel free to contact Sally @ Wesley Acres (613-393-3159). Tickets are \$20.

*editorial note...*George and Sheila have a real heart for sharing the love of Christ, so much so, that they have invited all the neighbors along Wesley Acres Road to this event. And, they have found a sponsor who is paying for their tickets.

Christmas in the County is a tremendous way for us to celebrate the meaning of Christmas while building bridges to our immediate community. The Pattons are models of people that are fulfilling one of our Wesley Acres' objectives which is to 'be a catalyst of goodwill to our county.'
